

Milestone 1

Juan Salazar

Grand Canyon University

CST 150: Programming in C# I

Professor Smithers

4/10/2022

Inventory items will have:

- A description of the product (strings)
- The amount of that particular product available (integers)
- Serial number of the products
- Sizes of products (small, medium, large)
- The type of animal the food is for
- Text boxes to input items into the inventory
- Text boxes to search for items in the inventory
